AH-NC600

Noise Cancelling Headphones

DENON

ESCAPE to QUALITY SOUND

You can enjoy the ultimate in private listening enjoyment, with Compressed Audio Restorer and advanced noise-cancelling technologies that reduce outside ambient noise by 99%

Reduces external noise by about 99%

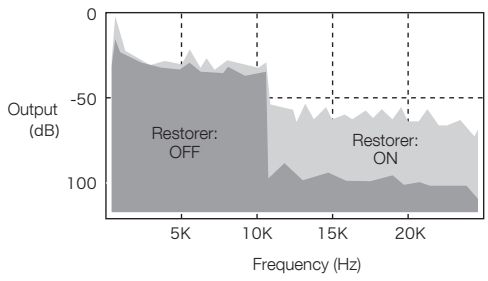
Features

Key Features

- Reduces ambient noise by 99% (*1)
- Compressed Audio Restorer improves the fidelity from your portable audio player.
  - Compressed Audio Restorer restores high frequency harmonic components lost in an audio compressing process.
- Radial Cascade Damper reduces cable transmitted vibration noise
- Acoustic Optimiser

  Acoustic Optimiser achieves optimum acoustic characteristics by adjusting the sound pressure balance in front of and behind the diaphragm. It minimizes muffling in the low frequency range, reduces modulation effects in mid to high frequency range, and achieves a smooth response.
- Ergonomic design for best quality fit and increased comfort
- Hybrid material driver housing for highest fidelity sound reproduction

Compressed Audio Restorer spectrum diagram



Other Features

- 13.5 mm driver for clear, dynamic sound
- Canal-type in-ear headphone reduces external noise
- Lower power consumption permitting continuous use of 60 hours (Uses one AAA battery, easily available on the go)
- You can enjoy sound even when Noise Cancelling is turned off
- 1.1 m OFC cable with straight plug
- Gold-plated stereo mini-jack
- A plug shape that can be used with the Apple iPhone

Accessories

- Extension cable: 0.8 m with L-type plug
- Silicon ear pads in 3 sizes (S/M/L) for best quality sound
- Soft Foam Ear Pad for custom-fit
- Convenient semi-hard shell carrying case which is usable as the stands of the portable audio video player
- Airplane dual plug adapter
- AAA type battery x 1

A carrying case usable as the stands of your iPod
iPod is not included

Main Specifications

Impedance	70 ohms (power on)
Sensitivity	112 dB/mW (power on)
Maximum power input	100 mW
Battery life	(Approx.) 60 H (when an alkaline battery used)
Frequency response	5 - 25,000 Hz
Driver diameter	13.5 mm
Cable/plug	(Approx.) 1.1 OFC/ ø3.5 mm
Accessories	Carrying case x 1, Extension cable x 1 (Cable length: Approx. 0.8m), Airplane dual plug adapter x 1, AAA type battery x 1, Ear pieces (S/M/L size) x 1 (2 pcs/1 size), Foam ear pieces x 1 pair
